

Sterling DF Series

Down Flow
Non-Backwashing
Filter

DF Series Filters are designed to work with various filter medias. The most common filter media is activated carbon for the removal of taste, odor, de-chlorination, and radon gas.

- **Large Distributor Head** for easy bypass and plumbing installation.
- **Translucent Filter Tank** allows visual inspection of media level without disassembly.
- **One Inch Porting** allows higher flow rates with less pressure drop.
- **Union Connections** for quick servicing of unit.
- **Full Flow Bypass Valve** for easy to use, two handle valve allows you to water the yard or garden with raw water. Also, allows uninterrupted water service during periodic maintenance.
