EMX Series

Light Commercial Water Conditioners 1.25" Valve

- **Push Button Simplicity** All settings and programming information at your finger tips.
- **Hefty Brine Tank** Large capacity tanks reduce the frequency of salt refill. Salt platform (120 Kgr unit or smaller) keeps the salt dry and prevents bridging and mushing. Safety shut off prevents brine overflow.
- **Non-corrosive Construction** All components are made of fiberglass, stainless steel or similar materials to provide years of service without rust or corrosion.
- **Modular Design** Provides quick serving of the control. No bolts or screws means most repairs can be done without tools.
- **Adjustable Regeneration Cycle Durations** Programming can be adjusted to handle your water conditions.
