SCS1 Series

Backwashing Carbon Filters

- **Scientific Media Blend.** A blend of different type of carbon medias helps this unit tackle Chloramines, Chlorine, VOCS, THMS and a variety of odors.
- **Rugged Mechanical Piston Valve.** No Solenoids or flapper valves to stick.
- **Suspended Backwashing System.** Automatically flushes contaminants down to drain then scrubs and turns over media for longer bed life.
- **Easy to Program Valve.** Simple touch buttons to help with programming and manual backwashing.
- **Full Flow Bypass Valve.** Simple quarter turn of the handles takes the unit off stream. This is ideal for watering the yard or providing water while the unit is being serviced.
- **Non-corrosive Construction.** Components are fiberglass and polyethylene, eliminating rust and corrosion problems.
